To Whom It May Concern:

We recently had the pleasure of working with Gary Cain of Rose Office Systems in the setup of a 1,680 sq. ft. modular office building here at the McDowell Center for Children. The offices were set up for the administrative employees.

Gary and his staff did a very good job in coordinating the delivery and setup of our modular building. We have been extremely pleased with the customer service that has been provided. They have responded to our needs in a very timely manner.

We would recommend Rose Office Systems to any business that needs modular office space.

Sincerely,

Russell Goad  
Administrator
