

Gilmore Memorial Hospital

1105 Earl Frye Boulevard

Amory, Mississippi 38821

To Whom it may concern,

Last year we had to expand several non-clinical offices of the hospital in order to keep up with the growth (about 2,400 square feet).

I spoke to several modular building companies on possible solutions and needs that would work under my budget. Garry Cain (Rose Office Systems) was my choice due to the response and personnel touch to meet my needs. This was done on site by drawings, meeting with the people involved in the move and to customize the floor plans to meet those request.

Garry made sure everything was done as specified and would follow up for any problems or needed corrections. He made me aware of options that would either save me money or worked better by past experience. This, I feel was going above and beyond the call of duty.

Not only would I recommend Rose Office Systems, I would not consider anyone other than them for future projects. Customer satisfaction was stated at the beginning of the project, and to this day has not let up. He still calls to see if we are still happy with our modular building.

Thanks:

Mike Adams  
Director of Facilities
