Birmingham, AL 35244

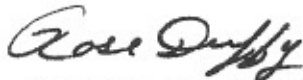

Dear Gary:

Thank you again for working closely with us on our Physician's Office.

The assistance you provided in the design and completion of this office was outstanding. By working with the physician and keeping in close contact with me the finished office met both our needs. Your expertise in codes, designs, and set-up made this project easier to complete. The constant communication you provided from start to finish was a must for the success of our project.

We are proud of our building and I would recommend your company to anyone in the market for this type of structure.

Sincerely,

Rose Duffy, Director of Materials Management
